

## A. Chenari (CV)- Oil& Gas Drilling (Upstream)

---

### **Ahmadreza Eisvand Chenari**

Mobile Phone: +98-912-836-4866

Email: [Chenari.drilling@gmail.com](mailto:Chenari.drilling@gmail.com)

### **PERSONAL INFORMATIONS**

Date of Birth: 21-Mar-1974

Marital Status: Married, Two Children

### **LANGUAGES**

English (Fluent in Speaking, Reading & Writing) and also Arabic.

### **EDUCATION**

- B.Sc. in Mining Engineering Yazd University 1998.
- M.Sc. MBA Degree, Tehran University 2019.
- PMBOK Certificate- PMP courses.
- Jointed Drilling Oil and gas in 2000 with Schlumberger (IPM)
- Teaching Drilling Courses (Schlumberger)
- Drilling Procurement Courses
- Drilling Bit Courses (Baker, Reed, Smith, DBS, KD, BESTE)

# A. Chenari (CV)- Oil& Gas Drilling (Upstream)

---

## Experience Summary:

2024 Apr to Present

As Founder, Entrepreneur and Managing Director of Peshro Energy Almas Kish Company (PEAK) Jointed to Sepas Holding

- Establish, Design and Run the Drilling Optimization AI Software, it is running in many Drilling projects
- Establish, Design and Run the Drilling Bit Selection AI Software, it is running in many Drilling projects
- Make Contract as Exclusive Agent for Kingdream Drilling Bits
- Establish, Design and Run the Special Platform Software in Upstream and drilling and operation management Software, it is running in many drilling projects
- Establish, Design and Run a Software in Upstream and down stream Procurement as Market Place.
- Make Contract as Exclusive Agent for Felong Drilling bits Manufacturer as well as Provider of Reed and Baker Bits
- Make contract with Rig Accessories Manufacturer
- Make contract with Tubular goods Manufacturer which are in NIOC AVL
- Provision of Tubular goods for NIOC More than 3000,000 Dollar in First 3 month from start 2024-2025
- Provision of Hole opener for NIOC
- Provision of Near Bit Stabilizers for Azerbaijan
- Preparation to buy one Coiled tubing Unit (CTU) c/w nitrogen pump to service to NISOC

2021- 2024 Apr

## Technical Manager (PKD)

- Head of drilling engineering and Technical Manager from Jan-2023, to preparation of all activity related to drilling engineering in offshore and onshore
- Preparation and supervised of drilling engineering plans and program, included but not limited to drilling FEEDS, drilling program, casing and tubing design, completion design, offset wells data review and preparation of proper report for future fields and selection of best operations, bit design and bit selection, hydraulic design and drilling optimization,
- Design and providing the drilling management software work as drilling optimization advisor
- Procurement and drilling equipment selection and provision of same on optimum quality and minimum price from NIOC in and out of territory based on project WBS & CBS.
- Provision of SOW for all drilling services in offshore and onshore
- Any other plans, program and drilling engineering related activities.

## Business Development Manager (PKD)

Now I am working with Parsian Kish Drilling Company (PKD) as Business development manager  
Prepare and revised the company profile

Prepare and revised the company organization chart.

We applied for the license of the company as a knowledge-based company and finally we received the knowledge-based license from Pardis Technology Campus.

We got the Technical based license from Pardis technical Campus.

Make MOU & contract with a foreign ESP manufacturer to provision, installation and repair of ESP for Iran territory.

## A. Chenari (CV)- Oil& Gas Drilling (Upstream)

---

Negotiate and make MOU and contract with Rig owner for attending the drilling tenders. Negotiate and make contract with Sahand university for development of Soroush oil filed from IOOC (client- offshore). We hold many of meeting for cooperation and make contract with an international Oil minister and field deputies to develop of oil field in a foreign country.

Participated to the tendering of Revival of closed and low yield wells (NIOC), prepared the technical proposals for 15 idle wells to revive of and line up to the production cycle.

We won 3 wells to start operation for revive.

Participated to many of conference and seminar as well international as oil and gas exhibition oil show

### Drilling Services & Procurement Manager (PKD)

Preparation of MRs and MTO for drilling equipment for 31 oil wells in Ahvaz oil field c/e technical

specifications of Casing, tubing, well head & x-mass tree, liner hanger, down hole completion, casing accessories, drilling bits, whip stock & ...), indent issue, tendering, technical evaluation, commercial evaluation, technical and commercial clarifications, finalizing the contract and PO issuing and

Preparation of SOW of drilling services for 31 wells in Ahvaz oil field included of technical documents and commercial estimations of related drilling services (cmt, mud, mud logging, waste management, Directional drilling, wire line logging, gyro, whip stock, fishing and rental tools, perforation service, casing and tubing running, hydrofracturing service, completion running service, well head installation service, liner hanger running service,

Made contract for all drilling services and po issuing for all drilling equipment , supply all drilling equipment for 10 wells, start the drilling operation with 3 rigs , coordinate with drilling services suppliers & supply the drilling equipment and drilling services according the drilling plan and drilling operation procedure and timeline

**2016-2021**

### Completion Manager - (Offshore – Onshore)

Started as completion manager for 76 wells in south pars gas field(offshore) and 10 conventional completion system for onshore for pgfk.

provision of monobore 7" CRA Completion 28% Cr from a foreign manufacturer and conventional completion from inner manufactures.

provided of plan, SOW & program for completion of 76 wells and 10 oil wells in onshore Laali oil field run lower part of mono-bore completion, run and set the lower part of down hole completion

supervise the operation for setting the hanger and packer in write depth, carry out perforation, Acidizing and clean up the well, run the seal unit of upper part of completion inside of PBR latch and seal the scissor tie back completion to the surface with 7" CRA 29# tubing space out and set the tubing hanger in tubing head spool integrity test the same, fill in the well with completion fluid, flow the well to burner booms, flow the well to the flow line complete the job.

**2013-2016**

### Project Manager & Vice president of Sarvak kish Company Offshore - Onshore

Preparing of technical bids for Services such: Drilling fluid, Directional drilling, Casing Running, Wire Line logging, Gyro, well testing, MLS installation, CMT, bucking system.

Providing of technical clarifications with manufactures and suppliers. Finalize the technical evaluations and made contract.

Provision of contract for all drilling services for drilling of 20 wells in HT-HP Azar oil field mud weight in this filed was up to 152 pcf.

# A. Chenari (CV)- Oil& Gas Drilling (Upstream)

---

Stablish, in-house & carry out some drilling services such as Cementing, Casing and tubing running, mud & waste management for Sarvak kish

**2011- 2013**

## Drilling Engineering Manager – Drilling Project manager (PGFKOffshore)

Start work with pgfk as **Drilling Engineering Manager** Prepare Tender documents to participate for tendering of 76 HT/HP gas wells in Persian Gulf of South Pars Gas field (POGC)

After winning the project Start (76 wells) start work for pgfk as Drilling Engineering manager to prepare design and provide of drilling program and well trajectory based on offset wells data for 76 well in Phases 22, 23, 24A & 24B (totally 38 wells) and Phases 13 A, 13b, 13c & 13D (totally 38 gas wells)

### A- Engineering

Generating of DRILLING PROGRAM for 38+38 (76 HT/HP Gas Wells):

- Drilling Program
- Design all forms and formats for: DDR
- DWOP
- Bit Selection
- Drilling equipment material selection
- MRs Issue
- PO Issue
- INDENT
- CARGO MANIFEST
- INVENTORY
- Coordination Procedure in Drilling Operation - Drilling Well On Paper (DWOP)
- Drilling Procedures

### B- Procurements

Providing of tendering documents and material take out (MRs) for the equipment needed for 76 No. wells.

Preparing of technical bids for equipment of all wells

Providing of technical evaluation for all receiving quotations in Drilling Bits and Hole opener, casing, tubing, well head, Mono bore completion, MLS

Providing of technical clarifications with manufactures and suppliers.

### C- Services

Preparing of technical bids for Services (at least 22 Services) such: Drilling fluid, Directional drilling, Casing Running, Wire Line logging, Gyro, well testing, MLS installation, CMT, bucking system.

Providing of technical clarifications with manufactures and suppliers. Finalize the technical evaluations and made contract.

### D- Inspection Supervisor

Proceed Dalian dry duck port In China on Rig CPOE-9 for preparation and inspection while was equipped and tested by Modu Spec Co. in DALIAN Shipyard (CHINA) and finalized inspection. At 2011

## A. Chenari (CV)- Oil& Gas Drilling (Upstream)

---

I started new position as **Drilling Project manager** for Phases 22, 23, 24A & 24B (4 drilling platforms with 38 wells) while get approval of drilling programs from client (POGC)

### 2008-2011

#### Senior Drilling Engineer-Operation Manager – Project Manager, Drilling Engineering manager in Dana Drilling Company- Offshore-Onshore

As **Senior drilling engineer** of offshore project in south pars HT-HP gas field two phases phase 15 & phase 16 in South pars Persian Gulf. Prepare casing design, bit selection and monobore completion design from baker Hughes, Issue MR for casing, Tubing, completion, well head, bits and casing accessories, prepare scope of work for drilling services for offshore,

Representative of Dana Drilling Co. on Jack up Italian Rig PN3 in Sharjah dry duck port (UAE) for inspection, repair and preparation to move to Iran for drilling in phase 15 Persian Gulf.

Representative of Dana Drilling company on Jack up Chinees COSL Strick Rig from POGC to move for drilling in Phase 16 Persian Gulf.

Prepare drilling program for 24 gas wells with trajectory and detected drainage area,

Project manager for providing the 25 sets of Whip stocks from smith international company design and install for NISOC (National Iranian Oil Company) with 100% success and get appreciation letter from client.

**Project manager** for directional drilling project for ICOFC (NIOC) various fields 10 wells.

Drilling Superintendent and manager the drilling operation of Phase 16 for drilling of 12 wells with preparation of all equipment and drilling services and logistics to the Rig.

**Drilling Engineering Manager** in Dana Energy Supervise and prepare all drilling program for various fields.

Make Sole agency contract with 2 Bit Manufacturer Kingdream Rock bit manufacturer and BESTE PDC bit manufacture to provide all types of the drilling bits for Iran market. Modified the bits suitable for Iranian drilling fields so after 2010 we got with 90 present of Bit market of Iran included of bit selection, bit design, bit provision and bit services to the clients. Evaluate the bit records and improve the bit types & bit selection and drilling optimization for each well also for the mentioned field.

### 2007-2008

#### Well Site Drilling Supervisor (CNPC) – Drilling of 21 wells MIS (Onshore)

Start working for CNPC as Well site **Drilling Supervisor** (Company man) in MIS Field (Onshore) for drilling of 17 new wells and 4 work over wells in Sarvak Reservoir

Prepare all MRs for Drilling Equipment (Casing, Tubing, well head and x-mas tree, down hole completion, Casing and tubing accessories, Bit)

Preparing of drilling program and well trajectories based on offset wells data and geological prognosis report

Preparing of Rig Spot check list included of all rig component, inspections and responsibilities more than 200 items

Supervise the drilling as well site drilling supervisor (Company man)

### 2000- 2007

Jointed Schlumberger (IPM)- with Pedco Projects at 2000 as drilling engineer & company man Trainee -Snr drilling Eng. And Company Man for drilling of 100 wells in Persian Gulf (Offshore)

## A. Chenari (CV)- Oil& Gas Drilling (Upstream)

---

2 weeks work in the office as **Drilling Engineer**, under training of Schlumberger Engineers with the drilling courses with related certificates.

2 weeks on the Jack up rigs (6 Rigs) as **Company man trainee, Night Company man & Company man** under training of SLB's IPM. Started drilling operation with study of drilling program c/w instructions of SLB Well site drilling supervisor.

After daily training go round around of the rig and all related rig component and accessories such as Generators, mud pump, Draw works, Top drive, rotary table, BOP, shale shakers, desilter, desander, centrifuges, mud tanks, mud pits, Burner booms,

**Started as drilling supervisor (Company man)** with Schlumberger on Jack up drilling rigs in various drilling fields (Oil wells and Gas Wells) in Persian Gulf IOOC filed with 6 rigs (Sakhalin Skaya, Ekhabi, Orizont, Fortuna, Explorer 4, Maersk Valiant)

Supervise the drilling operation based on the drilling program with international policy and standards, manage the boats and logistics for cargo and manage the drilling services to proceed to the location in due time and release the same in due time

Manage the documents and all daily reports and send to the town and hold the morning meeting on the rig site at 7 AM and 8:00 AM with base office with safety issues and stop cards, drilling operation for past 24 hrs , logistics activities and cargo delivery, fuel oil, drilling water and potable water, manage the food provision from UAE to the rig site, cargo manifests, cmt and mud material management on rig site update the 7 days look ahead every day ...)

### SKILLS

Professional in provision of Drilling Plan & Program and completion Program & Running the Drilling Well on Paper, Time vs Depth, NPT, Drilling activity and Timing Schedule)

Able and Professional to evaluate of all material, equipment & Services regarding the drilling and completion. Good Knowledge and 8 years' experience as Drilling Supervisor (Company Man) of drilling and completing of oil and gas (HTHP-Offshore & Onshore drilling projects).

Good knowledge and experience for designing and planning of drilling.

Good knowledge and experience for design, Purchasing and installing of different types of Well heads – Conventional and Multi bowl-(Cameron, ABB, FMC, Kvaerner & MSP).

Good Knowledge and experience of Fishing tools and Fishing operations.

Good Knowledge and experience for different types of Drilling Bits-Rock and PDC- (Smith, Baker, Reed, Varel,TIX, BEST, King dream and ChuAnke Bits). And also study and follow bit performance in different fields in Iran.

Good Knowledge and experience of Reporting and Documentations, for all activities in rig site and working of well activities report. Also end of well reports.

Special study, knowledge and experience in all types of Casing and Tubing and Thread & connections.

Power Point Presentation of Tubular good and specifications.

Good Knowledge &Familiar with API Standards in Drilling, Equipment and Material.

Translating of technical letter in CRA Tubular.

Good enough Experience and Knowledge in South Pars HTHP Drilling Operation Formations, Risks and Problems and ....

Familiar with rig selection and able to inspection the rigs technically.

Hydraulic and Bit Design for drilling.

Familiar with all Service companies in worldwide and familiar with all drilling services.

### CERTIFICATES

IWCF Certificate and well Control, UAE-GSTC –2010-Oct Offshore

Survival & HEUT Certificate 2005 - 2009 -2012- 2018 Drilling

Office Certificate from Schlumberger.

## A. Chenari (CV)- Oil& Gas Drilling (Upstream)

---

Well View Managing and Operation Software (Ploton) Drilling  
Bit Course and Certificate in Scotland (Smith Bits- 2003)  
Drilling Bit Course and Certificate in UAE (Baker Hughes Bits-2004).  
Drilling Bit Course and Certificate in UAE (Reed Hyc.Bits-2005).  
Drilling Equipment Technical Course and EPC System Certificate (Sharif University-2007).  
HSE Certificate in Kish Island -2006.  
Weatherford Intelligence Completion Course-2006 Wire Line  
Logs Training Course –Schlumberger- 2007. 11- H2S Training  
Course –SUNBELT-2008 &2009.  
Survival at Sea and HUET Certificate –Apr- 2012  
Attending the worldwide oil and gas exhibitions & Conferences Course  
of PMP.  
PMBOK Certificate  
Procurement Logistics and Warehouse Certificate  
MBA Certificate

### Other Related Activities:

PMBOK Certificate  
PMI Certificate  
Teaching “Drilling Engineering and Project management” -  
Teaching “Drilling Engineering and Project management” in BKZ Drilling.  
Project manager in (Dana Energy, Sarvak Kish, IPAC Co. and PGFK) in HTHP Mega Projects.  
Drilling Certificates  
Bit selection for all different types of Formation and fields
